CREO TO AUTOCAD EXPORTER

Creo to AutoCAD Exporter is a data exchange tool to export your Creo 3d model to AutoCAD with all metadata and geometry maintained

FEATURES & BENEFITS

- Convert all your Creo parts and assemblies to native AutoCAD blocks and nested blocks.
- Export based on your desired simplified representation and coordinate system to obtain the required orientation inside AutoCAD
- Export models with parameter and material information and maintain the same in AutoCAD
- Obtain Non-triangulated Solid geometry
- Instantiate your parts and maintain the hierarchy inside AutoCAD
- Transfer all colours and properties as well
- Exclude materials and Ignore Hierarchy grouping while importing and map or customize the geometry type of the importing components
- Simplify your models with the user-friendly interface combined with easy operation to assist novice and experienced designers alike

Other Products

- Creo to Revit Exporter
- Creo to Sketchup Exporter
- Creo to Rhino Exporter
- Rhino to Creo Exporter
- AutoCAD to Creo Exporter
- Sketchup to Creo Exporter
- AutoCAD to Revit Exporter
- AutoCAD to SolidWorks Exporter
- AutoCAD to Inventor Exporter
- SolidWorks to AutoCAD Exporter

Worldwide Coverage

Worldwide coverage with the most professional and experienced local partners

Licensing Plans

Various licensing plans to implement across a global network

You're in safe hands

World's top engineering companies are staying competitive using BIMDeX Products
