

CREO TO CIVIL3D EXPORTER

Creo to Civil3D Exporter is a data exchange tool which creates Native Civil 3D Blocks from the Creo parts and assemblies.

FEATURES & BENEFITS

- Convert all your Creo parts and assemblies to native Civil 3D blocks and nested blocks.
- Export based on your desired simplified representation and coordinate system to obtain the required orientation inside Civil 3D.
- Options to ignore internal components assigned under shrink wrap & Ignore hidden components while export.
- Obtain non-triangulated solid geometry.
- Instantiate your parts and maintain the hierarchy inside Civil 3D.
- Transfer all colours and properties as well.
- All model information including geometry, units, materials etc. will be converted.
- Simplify your models with the user-friendly interface combined with easy operation to assist novice and experienced designers alike.
