

# INVENTOR TO REVIT EXPORTER

Inventor to Revit Exporter is a data exchange tool to export your Inventor 3d model to Revit with all metadata and geometry maintained

# FEATURES & BENEFITS

---

- Convert all your Inventor parts and assemblies to native Revit families (rfa) and projects (rvt).
- Export based on your desired level of details and coordinate system to match your customer's Revit project coordinates
- Obtain even better results in Revit than the default conversion from Inventor.
- Obtain non-triangulated solid geometry
- Instantiate your parts and maintain the heirarchy inside Revit
- Transfer all colours and properties as well
- Import the models in your custom Revit template and Assign individual Revit categories to your parts
- Simplify your models with the user-friendly interface combined with easy operation to assist novice and experienced designers alike

## Other Products
