# SKETCHUP TO REVIT EXPORTER

Sketchup to Revit Exporter is a data exchange tool to export your Sketchup 3d model to Revit with all metadata and geometry maintained

# FEATURES & BENEFITS

---

- Convert all your SketchUp Objects to native Revit families (rfa) and projects (rvt) and save the custom settings for ease of use
- Export based on your desired layer or scene selection and group the geometry based on Layer name or Object type
- Export models based on Component name selection or Group name selection and Include or Exclude Unnamed components, Unnamed Groups and Orphan geometries
- Smoothen the edges and obtain non-triangulated solid geometry
- Instantiate your objects and maintain the heirarchy inside Revit
- Export object visibility information for better documentation
- Import the models in your custom Revit template and Assign individual Revit categories to your parts
- Simplify your models with the user-friendly interface combined with easy operation to assist novice and experienced designers alike

## Other Products

- SolidWorks to Revit Exporter
- Creo to Revit Exporter
- Inventor to Revit Exporter
- Rhino to Revit Exporter
- AutoCAD to Revit Exporter
- Revit to Creo Exporter
- Revit to SolidWorks Exporter
- Revit to Rhino Exporter
- SolidWorks to Rhino Exporter
- Inventor to Rhino Exporter
- SolidWorks to AutoCAD Exporter

### Worldwide Coverage

Worldwide coverage with the most professional and experienced local partners

### Licensing Plans

Various licensing plans to implement across a global network

### You're in safe hands

World's top engineering companies are staying competitive using BIMDeX Products
